INTRODUCTION

A county or a direct provider must conduct system testing of their CalOMS Treatment data collection and reporting system before beginning certification testing and the subsequent sending of production or "live" CalOMS treatment data to ADP.

System testing is critical to ensuring that a county's system meets user requirements. It also makes sure that the system is ready to transmit certification data to CalOMS in the format that meets CalOMS data requirements and data quality standards.

ADP certification testing team has received a number of inquires regarding the scope and content of the system tests. In an effort to provide an answer to multiple queries the ADP certification team developed a set of sample system test cases that can be used as a reference during your system test planning.

Note: To avoid redundancy, the term "county" is used throughout this document to refer to both counties and direct providers. Also, the term "CalOMS Treatment" is being used instead of simply "CalOMS" in order to differentiate from "CalOMS Prevention, which is part of the overall CalOMS project.

PURPOSE AND SCOPE

The intent of this document is to provide a set of sample system test cases that can be used as a reference when developing system test scripts for CalOMS Treatment data collection and reporting systems. This document targets county/DCP IT personnel and vendors as they complete development of their respective CalOMS Treatment systems and prepare for system tests and certification with ADP.

Please note that the presented sample test cases will not exhaustively test a particular CalOMS Treatment data collection system developed or procured by your county or at your direct provider site. This document should be used as a reference, a "stepping stone" or a starting point for development of your own scripts or test cases that specifically target your system.

The sample test cases are grouped according to the type of elements that they aim to validate:
- Record and File Level Tests
- Relational Rules and Edit-Drug Codes, IV use, Alcohol Usage
- Relational Rules and Edit –Age Dependencies
- Relational Rules and Edit – Birth Place/State, Driver's License
- Relational Rules and Edit - HIV, LEG elements
- Relational Rules and Edit - Living Arrangements
- Relational Rules and Edit - Code 99904 – Detox and Disability

If you have questions regarding the sample test cases please contact Margie Ornelas at mornelas@adp.state.ca.us or Irina Soares at isoares@adp.state.ca.us

Test Cases for CalOMS User Interface - FILE

Case #	Case Description	Identifier	Type of Test	Note	Assigned to	Completed
8	Submit a valid standard admission record with all the data elements conforming to the specified value format and relational rules		Positive			
9	Submit a standard admission record introducing an error in the data element that violates a value based rule - the data element exceeds max length		Negative	applies to all 82 elements of the admission record - approximately 95% of all data fields.		
10	Submit a standard admission record introducing an error in the data element that violates a value based rule - the data element is shorter than the min length specified		Negative			
11	Submit a standard admission record introducing an error in the data element that violates a value based rule - the data element that belongs to an invalid class (integer/non-integer; alpha/numeric/alpha-numeric; lower/upper case; special/junk characters)		Negative			
12	Submit a standard admission record introducing with the data element is on the max boundary		Positive			
13	Submit a standard admission record introducing with the data element is on the min boundary		Positive			
14	Submit a standard admission record introducing with the data element is one under the min boundary		Negative			
15	Submit a standard admission record introducing with the data element is one above the max boundary		Negative			
16	Submit a valid standard admission record introducing with the data element is within the boundaries		Positive			
17	Submit a valid standard admission record introducing blank data element, when the CalOMS system will accept blanks (optional fields)		Positive			
18	Submit a valid standard admission record introducing blank data element, when the CalOMS system will not accept blanks (mandatory fields)		Negative			
19	Submit a youth admission record introducing an error in the data element that violates a value based rule - the data element that belongs to an invalid class (integer/non-integer; alpha/numeric/alpha-numeric; lower/upper case; special/junk characters)		Negative			
20	Submit a youth admission record with all the data elements conforming to the specified value format and relational rules		Positive			
21	Submit a youth admission record introducing blank data element, when the CalOMS system will accept blanks (optional fields)		Positive			
22	Submit a youth record introducing blank data element, when the CalOMS system will not accept blanks (mandatory fields)		Negative			
23	Submit a standard submission record will the elements violating one of the relational rule (see data dictionary for detailed description of each rule and associated error code)		Negative	specific relational rules are associated with each data element - detailed list will be attached		

24	Submit a youth submission record will the elements violating one of the relational rule (see data dictionary for detailed description of each rule and associated error code)		Negative	specific relational rules are associated with each data element - detailed list will be attached	
25	Submit a standard admission annual update record will the elements violating one of the relational rule (see data dictionary for detailed description of each rule and associated error code)		Negative	specific relational rules are associated with each data element - detailed list will be attached	
26	Submit a youth annual update record will the elements violating one of the relational rule (see data dictionary for detailed description of each rule and associated error code)		Negative	specific relational rules are associated with each data element - detailed list will be attached	
27	Submit a standard discharge record will the elements violating one of the relational rule (see data dictionary for detailed description of each rule and associated error code)		Negative	specific relational rules are associated with each data element - detailed list will be attached	
28	Submit a youth discharge record will the elements violating one of the relational rule (see data dictionary for detailed description of each rule and associated error code)		Negative	specific relational rules are associated with each data element - detailed list will be attached	
29	Submit a detox discharge record will the elements violating one of the relational rule (see data dictionary for detailed description of each rule and associated error code)		Negative	specific relational rules are associated with each data element - detailed list will be attached	
30	Submit a admin discharge record will the elements violating one of the relational rule (see data dictionary for detailed description of each rule and associated error code)		Negative	specific relational rules are associated with each data element - detailed list will be attached	
31	Submit a standard discharge record with all the data elements conforming to the specified value format and relational rules		Positive		
32	Submit an standard annual update record introducing an error in the data element that violates a value based rule - the data element that belongs to an invalid class (integer/non-integer; alpha/numeric/alpha-numeric; lower/upper case; special/junk charact		Negative		
33	Submit an standard discharge record introducing an error in the data element that violates a value based rule - the data element that belongs to an invalid class (integer/non-integer; alpha/numeric/alpha-numeric; lower/upper case; special/junk characters)		Negative		
34	Submit a valid youth discharge record with all the data elements conforming to the specified value format and relational rules		Positive		
35	Submit a valid detox discharge record with all the data elements conforming to the specified value format and relational rules		Positive		
36	Submit a valid admin discharge record with all the data elements conforming to the specified value format and relational rules		Positive		
37	Resubmit standard admission record in response to rejection		Positive	in the same file and in separate file	
38	Resubmit youth admission record in response to rejection		Positive	in the same file and in separate file	

39	Resubmit standard annual update record in response to rejection		Positive	in the same file and in separate file		
40	Resubmit youth annual update record in response to rejection		Positive	in the same file and in separate file		
41	Resubmit standard discharge record in response to rejection		Positive	in the same file and in separate file		
42	Resubmit youth discharge record in response to rejection		Positive	in the same file and in separate file		
43	Resubmit detox discharge record in response to rejection		Positive	in the same file and in separate file		
44	Resubmit administrative discharge record in response to rejection		Positive	in the same file and in separate file		
45	Delete standard admission record		Positive	in the same file and in separate file		
46	Delete youth admission record		Positive	in the same file and in separate file		
47	Delete standard annual update record		Positive	in the same file and in separate file		
48	Send the Delete record to delete youth annual update record		Positive	in the same file and in separate file		
49	Delete standard discharge record		Positive	in the same file and in separate file		
50	Delete youth discharge record		Positive	in the same file and in separate file		
51	Delete detox discharge record		Positive	in the same file and in separate file		
52	Delete administrative discharge record		Positive	in the same file and in separate file		
53	Submit duplicate standard admission record		Positive	in the same file and in separate file		
54	Submit duplicate youth admission record		Positive	in the same file and in separate file		
55	Submit duplicate standard annual update record		Positive	in the same file and in separate file		
56	Submit duplicate youth annual update record		Positive	in the same file and in separate file		
57	Submit duplicate standard discharge record		Positive	in the same file and in separate file		
58	Submit duplicate youth discharge record		Positive	in the same file and in separate file		
59	Submit duplicate detox discharge record		Positive	in the same file and in separate file		
60	Submit duplicate administrative discharge record		Positive	in the same file and in separate file		
61	Submit duplicate standard admission resubmission record		Positive	in the same file and in separate file		
62	Submit duplicate youth admission resubmission record		Positive	no duplicate resubmission possible - will be applied as regular resubmission.		

63	Submit duplicate standard annual update record		Positive	in the same file and in separate file		
64	Submit duplicate youth annual update resubmission record		Positive	no duplicate resubmission possible - will be applied as regular resubmission.		
65	Submit duplicate standard discharge resubmission record		Positive	no duplicate resubmission possible - will be applied as regular resubmission.		
66	Submit duplicate youth discharge resubmission record		Positive	no duplicate resubmission possible - will be applied as regular resubmission.		
67	Submit duplicate detox discharge resubmission record		Positive	in the same file and in separate file		
68	Submit duplicate administrative discharge resubmission record		Positive	no duplicate resubmission possible - will be applied as regular resubmission.		
69	Submit standard discharge record without submitting the matching admission record		Negative	no duplicate resubmission possible - will be applied as regular resubmission.		
70	Submit standard discharge record and matching admission record in the same file where the standard discharge record is located prior to the admission record in the file		Negative			
71	Submit deletion record of the standard admission record and the matching standard admission record in the same file where the deletion record is located prior to the admission record in the file		Negative			
72	Submit deletion record of the standard discharge record and the matching standard discharge record in the same file where the deletion record is located prior to the discharge record in the file		Negative			
73	Submit deletion record for a record that does not exist		Negative	repeat for admission, annual update, discharge		
74	Submit Annual Update record without the matching admission record		Negative	applies to standard and youth admission		
75	Submit deletion of the annual update without the matching annual update record		Negative			
76	Submit the deletion of the annual update in the same file as the annual update record where the deletion record is located prior to the annual update record in the file		Negative			
77	Submit valid provider no activity record where all the elements are conforming to the validation and relational rules		Positive	unique data elements: SYS-1, SYS-3, SYS-4		
78	Submit valid provider no activity record where all the elements are not conforming to the validation rules associated with data format		Negative	unique data elements: SYS-1, SYS-3, SYS-5		

79	Submit valid provider no activity record where all the elements are not conforming to the relational rules		Negative	unique data elements: SYS-1, SYS-3, SYS-6	
80	Send two Admission forms with same serial number (TRN-3). (try sending both forms in same file and in different file submissions)		Negative	TRN-1 duplicate admission record FILE test case 53	
81	Send form 3:'Deletion of Admission' after a matching 1:'Admission' record sent.		Positive	TRN-1 duplicate admission delete record FILE test case 45	
82	Send form 3:'Deletion of Admission' without matching 1:'Admission' record.		Negative	TRN-1 duplicate to unmatched admission delete record FILE test case 73 (b)	
83	Send 4:'Discharge' after a matching Admission is sent. Verified by Form Serial Number (TRN-3).		Positive	TRN-1 duplicate to matched discharge FILE test case 31 (standard) and 34 (youth)	
84	Send 4:'Discharge' without a matching Admission in the system. Verified by Form Serial Number (TRN-3).		Negative	TRN-1	
85	Send duplicate 4:'Discharge' record with same serial #.		Negative	TRN-1 duplicate discharge record FILE test case 57, 60, 59 (standard) and 58 (youth)	
86	Send 6:'Deletion of Discharge' after matching 4:'Discharge' record submitted.		Positive	TRN-1 duplicate for delete matched discharge FILE test case 49, 51, 52 (standard) and 50 (youth)	
87	Send 6:'Deletion of Discharge' without matching 4:'Discharge' record.		Negative	TRN-1	
88	Send 7:'Annual Update' after matching 1;'Admission' record submitted.		Positive	TRN-1	
89	Send 7:'Annual Update' without matching 1;'Admission' record.		Negative	TRN-1	
90	Send duplicate 7:'Annual Update' with same serial #.		Negative	TRN-1 duplicate AU FILe test case 56 (youth) and 55/63 (standard)	
91	Send 9:'Deletion of Annual Update' after matching 7:'Annual Update' record submitted. Verified by Form Serial Number (TRN-3). Duplicate to submitting valid matching AU for youth and standard record		Positive	TRN-1 duplicate of FILE test case 48,47	

92	Send 9:'Deletion of Annual Update' without matching 7:'Annual Update' record. Verified by Form Serial Number (TRN-3).		Negative	TRN-1		
93	Send 2:'Resubmission of Admission' without matching 1:'Admission' Make sure that system accepts as Admission.		Positive	TRN-1		
94	Send 5:'Resubmission of Discharge' without matching 4:'Discharge' Make sure that system accepts as Discharge.		Positive	TRN-1		
95	Send 8:'Resubmission of Annual Update' without matching 7:'Annual Update' Make sure that system accepts as Annual Update.		Positive	TRN-1		
96	Submit form 1 with TRN-2 date that is before the System date.		Positive	TRN-2		
97	Submit form 1 with TRN-2 date that is after the System date. = submit valid admission record of any type (youth/standard)		Negative	TRN-2 duplicate of FILE test case 8		
98	Send Discharge forms '4' and '5' (TRN-1)with Participant IDs that match previously submitted Admission form. Submit matched discharge record		Positive x2	CID-2, TRN-2 duplicate of FILE test case 31		
99	Send Discharge forms '4' and '5' (TRN-1) with Participant IDs that do not match previously submitted Admission form.		Negative x2	CID-2, TRN-2		
100	Send forms 4, 5, and 6 (TRN-1) with Admission dates (ADM-1) that precede Discharge dates (DIS-1).		Positive x3	ADM-1		
101	Send form 4, 5, and 6 (TRN-1) with Admission dates (ADM-1) that supersede Discharge dates (DIS-1).		Negative x3	ADM-1		
102	Send form 1 with Admission Date (ADM-1) 1 year before Transaction Date (TRN-2). Duplicate to submit a valid admission record		Positive	ADM-1 duplicate to FILE test case 8		
103	Send form 1 with Admission Date (ADM-1) 6 years before Transaction Date (TRN-2).		Negative	ADM-1		
104	Send forms 4, 5, and 6 (TRN-1) with Discharge dates (ADM-1) that precedes / is equal to Discharge dates (DIS-1).		Positive x6	DIS-1		
105	Send forms 4, 5, and 6 (TRN-1) with Discharge dates (ADM-1) that supersedes Discharge date (DIS-1).		Negative x3	bad discharge, potential duplicate of FILE test case 101		
106	Send forms 4 and 5 (TRN-1) with Discharge Date (DIS-1) 1 year before Transaction Date (TRN-2).		Positive x2	DIS-1		

107	Send forms 4 and 5 (TRN-1) with Discharge Date (DIS-1) 6 years before Transaction Date (TRN-2).		Negative x2	DIS-1	
108	Send forms 7, 8, and 9 (TRN-1) with Admission dates (ADM-1) that are before Annual Update dates (AUP-1). Duplicate correct AU, reusbmission of AU, matched delete of AU		Positive	AUP-1 duplicate to FILE test case 39, 40, 47, 48, 21	
109	Send forms 7, 8, and 9 (TRN-1) with Admission dates (ADM-1) that are after Annual Update dates (AUP-1).		Negative	AUP-1	
110	Send forms 7 and 8 (TRN-1) with Annual Update date (AUP-1) 1 year before Transaction Date (TRN-2). Submission of valide matched AU records		Positive x2	AUP-1 duplicate to FILE test case 21 (need case number for standard AU)	
111	Send forms 7 and 8 (TRN-1) with Annual Update date (AUP-1) 6 years before Transaction Date (TRN-2).		Negative x2	AUP-1	
112	Send form 7:'Annual Update' with Annual Update Date that is under 10 months after Admission Date (TRN-2).		Positive	AUP-1	
113	Send form 7:'Annual Update' with Annual Update Date that is over 10 months after Admission Date (TRN-2).		Negative	duplicate fro valid matched AU submitted after 10 months: FILE test case 21	
114	Send Discharge forms 4 and 5 (TRN-1) with the Primary Drug (ADU-1a) set to None (0) and the Primary Drug Frequency set to None (99902).		Positive x2	ADU-2	
115	Send Discharge forms 4 and 5 (TRN-1) with the Primary Drug (ADU-1a) set to None (0) and the Primary Drug Frequency set to anything BUT None (99902).		Negative x2	ADU-2	
116	Send Discharge forms 4 and 5 (TRN-1) with the Primary Drug (ADU-1a) set to None (0) and the Secondary Drug Frequency (ADU-5a) set to None (99902).		Positive x2	ADU-5a	
117	Send Discharge forms 4 and 5 (TRN-1) with the Primary Drug (ADU-1a) set to None (0) and the Secondary Drug Frequency (ADU-5a) set to anything BUT None (99902).		Negative x2	ADU-5a	
118	Send PNA Report with the Month and Year set to a value later than the current Month and Year.		Negative	SYS-3
